

In my viewing area the episode of Nightline where Ted Koppel read the names of all soldiers killed in the Mideast conflict was not shown. Now Sinclair broadcasting is showing IN PRIME TIME the anti-Kerry political message Stolen Honor, with no equal time for an anti-Bush message or rebuttal. How is this permitted to happen? It seems obvious to me that this is nothing but the station owners opinion being thrust on the public and I can believe that neither communications or elections legislations allow this to happen unchecked. Please register my complaint against this corporate propaganda and the laws (or lack thereof) that allow this to go on. Thank you.
